What's New In?

WordPicker automatically gets a word from the application you want. If the word in the application is not in the dictionary, a link is provided to the dictionary window with the word highlighted. You can click on the link to use the dictionary. Note: When you set up the word picker, a word will be automatically selected. If you set the word picker to get a word from a specified window, this word will be selected. Screenshot A screenshot of WordPicker: How to Install/Update See the README.md file. How to uninstall To uninstall, delete the WordPicker folder. &

System Requirements:
